PROFILE

Sales, marketing and operations leader with 20 years of hands-on P&L ownership across chemicals exports, hospitality and real estate. Eight years heading sales and marketing for a specialty chemicals company selling into India, the UK, Ireland and the Netherlands, where I grew overseas sales 40% by opening new export markets and managing long-cycle B2B accounts. Before that: built and ran two businesses end to end, from an 18-staff Impresario Group cafe franchise to a 12-building property-management firm, on a Big 4 foundation at EY. Currently acting COO of a US consumer biotech startup, where I also run the company's AI-automated marketing operation, a capability I bring to any business ready to modernise its sales and back-office workflows.
